

Astral Voices Fascist pt. 1

-by B. Edwards

Some people
just won't accept the truth
about the reality
of these mysterious things

to each their own I say
if they aren't experiencing
the intrusions
of these astral voices fascist
then I'm happy for them

if I had such a choice
I'd probably not want
to believe in them either
but what can you do
when the proof of this reality
invades your life every day

when you hear the voices
talking
talking
always talking
and sometimes
you even feel a faint breath
hitting one of your ears

and it's always the same
harsh.....tyrannical
diatribe you hear
from who or whatever
is out there
among us.....unseen
and unheard by most
but not unheard by all
